

## Derailing the Prison Pipeline

### Lectures and Workshops on Restorative Justice

There is clear evidence that conventional responses to crime often construct a pipeline to our already overcrowded and ineffective prisons. The term *Restorative Justice* describes an understanding that crime is not simply a violation of law. Crime is a violation of people and relationships - violations create obligations. Those affected by a crime (offender, victim and community members) are often in the best position to know what "putting things right" means. *Restorative Justice Programs*, from Restorative Justice in Schools to offender reentry into the community, provide opportunities for all to participate, to be heard, to shape the process and to make decisions.

#### THE REST I MAKE UP

Maria Irene Fornes is one of America's greatest playwrights and most influential teachers. The visionary Cuban-American dramatist constructed astonishing worlds onstage and taught countless students how to connect with their imaginations. When she gradually stops writing due to dementia, an unexpected friendship with filmmaker Michelle Memran reignites her creative spirit and triggers a decade-long collaboration that picks up where the pen left off.
